ElderHope is view only for the future.

ElderHope has been run by two people for - geez, I don't remember how many years. We have been very fortunate in that time to have been able to protect our user data - what tiny bit we have in the first place. This is especially the case since we have been entirely self-taught in web management.

Alas, we do not have the time to invest in maintaining that high level of security, nor in making sure that people post appropriate stuff. So, we are, for the future, making ElderHope view only. This means that we are no longer adding new members and no longer allowing submissions to our forums, etc.

This protects everyone, including ourselves.
